10 Reasons to Choose Enterphone

1 Intelligent Telephone Entry:
The Enterphone portfolio features intelligent, integrated residential telephone entry systems and visitor management solutions.

2 Any Residential Facility:
Solutions are available for every type of residential and mixed-use property, from small apartment buildings to large multi-family, multi-tenant condominium high-rises.

3 Enterphone Mobile:
SIP enabled mobile application integrates with Enterphone panels to provide real-time audio and video capabilities directly to registered mobile devices.

4 Anywhere Operations:
Grant the right access to the right people at the right time from anywhere in the world with 24/7 browser-based remote access control.

5 Advanced Access Control:
Enterphone Cube hosts the browser-based software and allows full-access, view-only, and no-access administrative permissions by parameter, an open interface to HR and IT database(s), and forced entry and door held monitoring.

6 Scalable:
Grow to multiple panels, buildings, and locations; with the addition of the Enterphone Cube server, it is easy to manage from a single interface and location.

7 Flexible Out-of-the-Box:
Models are available with a touch screen or non-touch, audio and visual screen prompts, unlimited users/tenants, customizable screensaver, up to four languages, and no-phone-line option using existing copper wiring to call units directly.

8 Designed for High Traffic:
Each panel is encased in a rugged stainless steel enclosure.

9 Fits Where You Need It:
Enterphone is available in a variety of panels including a keypad driven 10-inch HD screen, a 19-inch HD Touch-Screen and a free-standing Kiosk version.

10 Highly Secure and Reliable:
Standard network IP securities include TLS and AES 256 encryption to battle against security threats.
