

# Enterphone™ Cube

Web-Based Visitor Entry and Access Control Server

Identiv's Enterphone Cube is a bundled appliance that hosts web-based access control software for facilities requiring readers, elevator control, and telephone entry.

## Enterphone Cube Appliance

Each Enterphone Cube can manage a single panel or can be used as a distributed database appliance working with other Enterphone Cubes, Enterphone telephone entry panels, and Freedom Access Control. The appliances are interconnected via WAN/LAN, can be mounted on a rack or wall, and feature open interfaces to HR and IT database(s). Enterphone Cube supports card readers through the addition of an IP-based Freedom Encryption Bridge and allows for unlimited users and cards, administrative users, and schedules and groups.

## Enterphone Family of Products

The Enterphone Family is a feature-rich, integrated telephone entry system for facilities of any size, from small apartment buildings to large multi-family, multi-tenant condominium high-rises. Using the same software-based design as Freedom Access Control, the Enterphone system is scalable and integrates with both Freedom as well as third-party Wiegand-based access control systems. All Enterphone products are configurable and administered using a common web-based browser.

## Complete Access Control

- Built for facilities requiring up to 16 card readers, elevator control, and telephone entry

## Integrated Options

- Standalone visitor entry and access control system
- Can be used as a distributed database appliance

## Manage from Anywhere

- Web-based programming interface
- Via Ethernet or direct connection

## Features and Benefits

- Forced entry and door ajar monitoring
- Full-access, view-only, and no-access administrative permissions by parameter
- User selectable event history with purge and/or export
- Direct connect keyboard and mouse

## Enterphone Cube Specifications

Parameter	Enterphone Cube
CPU/Motherboard	Intel Dual-Core Celeron J1900AE (2.4GHz) Processor
Drive and RAM	120GB Solid State Drive (SSD), 8GB DDR3 SODIMM
Power	DC 12V 5A 60W AC Adapter (Fanless)
Software	Linux with an open architecture SQL database
Dimensions	1.75 (H) x 8 (W) x 8 (D) in 3.6 lbs
Warranty	One (1) year Must be installed in a protected environment
Part Number	FR-50-24-MS2
